BRASS AND COPPER STOLEN.

Lieutenant Bettis and Officer Gill this morning captured 2,600 pounds of pig brass and copper in the warehouses of the Southern and Metal Company at the northeast corner of King and Lee streets. The metal had been brought to this city on the ferryboat which reached here at 7:45 o'clock. The driver, James Burgess, was taken in custody together with a young man, who gave his name as James Burke.

When the officers entered the warehouse the proprietors of the place had weighed nearly all the metal. It was returned in the wagon and the horse's head turned toward the station house and Burke and Burgess were locked up.

The proprietors of the junk store say that Burke came to their place of business last Saturday and asked the price of pig brass and copper, and made arrangements for delivering a lot of the same this morning. There is reason to believe that other men who accompanied him from Washington were on the outside. According to the agreement, the wagon containing about four hundred dollars' worth of metal appeared in front of the warehouse about 5 o'clock, and the contents were removed from the wagon.

Burke, after having been locked up, said he was from Oregon and had been employed by two men, one of whom was named Webster, to assist in loading the metal. He alleged he did not know the name of the other man. Burke stated that, according to directions, he went to a lot near the navy yard about 5 o'clock this morning and with the two other men and Burgess, driver of the wagon, placed the copper and brass into the vehicle and subsequently accompanied it to this city. When asked if he was in the warehouses of the Southern and Metal Company on Saturday

this morning for the purpose of transporting metal to Alexandria. He was on hand, according to appointment, and after the copper and brass had been placed in the wagon he, accompanied by the three men, drove to the ferry wharf for the purpose of catching the 6 o'clock boat for this city. They were, however, a few minutes too late and were compelled to wait for the 7:15 boat. Upon reaching Alexandria Webster and the unknown man entered a saloon, while Burke accompanied him (Burgess) to the building occupied by the Southern and Metal Company. Later the officers appeared, arrested him and Burke and seized the metal.

The metal, it is supposed, was stolen from the navy yard or the steel plant. Officer Gill discovered the contents of the wagon when it reached this city and notified Lieutenant Bettis and the latter with Officer Gill soon made the arrests and captured the plunder.

Burke and Burgess later in the day were turned over to officers from Washington.

WEDDED IN MEMORIAL HALL.

About 7 o'clock last night a young man and a young woman appeared on the lower floor of the M. E. Church South where the Epworth League was holding services. When the services had ended the couple of the church, and told him that they desired to embark upon the sea of life as man and wife and requested him to tie the nuptial knot. The couple seemed to be shy and desired to be married as quietly as possible and without any unnecessary witnesses being present. Mr. Bulls told the man and woman that he had no time to go to the parsonage with them, and suggested that probably but few people were in the auditorium of the church at the time, and he could marry them there. They followed the minister up stairs, but upon seeing several early comers in the church, their nerve failed them. The anxious couple then proposed that they return to the room where the Epworth League had met, supposing that by that time, the room would have been deserted, but a few members still lingered and they again flinched at the thought of being married even before that corporal's guard. Mr. Bulls then told them that in about eight minutes he would be expected in his pulpit, and if the young man and woman would agree he would accompany them into the George R. Hill Memorial Hall, now approaching completion, and there perform the marriage ceremony. By this time the curiosity of some persons had been aroused, but before any number could assemble in the new structure the couple had been pronounced man and wife. A young lady, however, upon realizing what had transpired, took a seat at the piano and discoursed a wedding march as the newly-wedded pair sought the street.

CONCERT.

In addition to those whose names have appeared, three well-known Alexandria singers will be heard at the concert to-morrow evening at St. Paul's Church Parish Hall—Mrs. Raymond Hulfish and Miss Lucy Graves, both of whom were soloists in the choir of that church for several years, and Mr. Kenneth Orde, the popular tenor soloist at Christ Church. Mrs. Hulfish's number will be "Dawn," by Somerest, and (b) "A Keepsake," by Metcalf. Miss Graves will sing Elgar's "The Swimmer." The work of these singers is well known to the music-loving public of Alexandria, and their appearance will add much to the pleasure of those who attend the concert.

THE FIRE YESTERDAY.

About one o'clock yesterday afternoon the roof of the residence of William B. Dalany, on the south side of Duke street, between Columbus and Alfred, was found to be burning. An alarm was sounded and the engines and the Relief Hook and Ladder truck were on the ground. The fire burned furiously for a short time, but was subdued as soon as the department went to work. Most of the damage was under the roof. The fire was caused by a defective flue. The fire in the Fairfax Mutual Co., William Dalany, the barber of the President in shaving Mr. Roosevelt, a telephone message was received in Alexandria was naturally very anxious concerning the safety of his wife and little children, but continued to perform his duty. The President upon learning the cause of the barber's anxiety, told him to finish shaving him and he would have him transported to Alexandria as speedily as possible. When Dalany had finished his tondorial duties an automobile was in readiness and the anxious barber was whisked to Alexandria in a short time. Advance in Price of Milk. Chicago, Nov. 18.—What will amount to nearly \$3,500,000 a year was the additional tribute levied against Chicago citizens today by the so-called milk trust. This is represented in an advance of one cent per quart on milk and two cents per half pint on cream. This makes milk cost five cents a pint and cream 20 cents. Chicago consumers use approximately 1,000,000 gallons of milk and cream every day. Big dealers claim the increase is due to the greater cost of the farmers' product.

The Russian Douma. St. Petersburg, Nov. 18.—The Octobrist-Conservative alliance in the Douma won in the election of minor officers of lower rank today. The address to the Czar, as drafted by the Octobrists and approved by the Conservatives, is also unprecedentedly moderate. It says it hopes to abolish anarchy, aid economic development, secure greater civil liberty for the people, bring the Czar and his people closer together and give the government a path of reform.

I cannot be compared with electricity when it comes to providing light for reading purposes.
